MANUFACTURING DEFECTS

The manufacturer warrants to the original purchaser of this flooring, in its original condition, shall be free from manufacturing defects caused by improper milling, and grading for as long as you own your flooring (except otherwise note below). You and/or your installer should carefully inspect each plank before installation. Any uncut planks that appear to have defects should not be installed and can be returned to the original place of purchase to be replaced at no cost to you.

The manufacturer is liable only when the defective flooring exceeds 10% Residential (20% Commercial) of the original hardwood flooring purchase order and will only repair or replace such defective material, excluding the cost of transportation, storage, and installation. Occasional defects in flooring from miss-milling or handling damage do occur. During installation, occasional defects will be encountered including machining snipes, waness, splits, and areas on the face that will not clean up. Simply crosscut out the defects and use the remaining sections to start or finish a row.

If your installer discovers a reoccurring problem or determines the waste to be excessive, stop immediately and call your retailer to review the problem before proceeding. The manufacturer will at its option, either send replacement flooring or credit you for that portion of flooring which fails to make grade. The warranty does not cover manufacturing defects that has been installed which are visible or which reasonably could have been discovered by you or your installer prior to installation. You must notify The manufacturer of any such manufacturing defects before installing flooring. If not properly notified the manufacturer shall not be held liable for any costs or expenses incurred as a result of the purchase or installation of any such defective or unsatisfactory flooring.
